

Syllabus of the Subject

Subject:	Quran II
Study program:	Islamic Theology
Number of ECTS credits:	7 ECTS
Level and type of subject:	Compulsory
Code of the subject:	207
Fund of classes:	3+3
ACADEMIC YEAR:	2021/2022
Semester:	-IV-
Teacher:	Dr. Fidan Xhelili

Brief description of the subject:

Subject of Quran II is one of the most vital subjects in FIS. This subject is intended to enhance further the knowledge on the rules and conditions of proper reciting deriving from respective science known as "Tecvid". Quran II is going to discuss proper articulation of Arabic letters, respecting the sounds and features of source and natural acoustics. Moreover it is expected to further enhance these competences through special precise rules related to extension of duration, pauses and restarting to read. Quran II will conclude with concrete results in proper reciting by bringing all these competences in continuity with theoretical aspect, in the level of practice.

Aim of the subject

It equips students with basic knowledge regarding the value of reading-reciting of the Noble Quran, rules and conditions of proper reciting deriving from respective science known as "Tecvid". And with that of providing skills to students into proper articulation of Arabic letters, respecting the sounds and features of source and natural acoustics and afterwards relating them into words and fluent reading of words in a sentences of Quran ayats-verses. Moreover it is expected to further enhance these competences through special precise rules deriving from the science of Tecvid interrelated with merging, formation and extensions of some sounds in conformity with standards set forth by this subject. The top skills are achieved by bringing all these competences in continuity with theoretical aspect, in the level of practice by the students under supervision and with continuous cooperation with the professor. All this is expected to result into qualitative and satisfactory level of proper reading-reciting of Noble Quran by the students who attend and engage into this course.

Expected learning outcome:

Following completion of the course, student will be able to:

Describe the rules of proper reading-reciting of Noble Quran.

Compare features of accurate reading from the inaccurate one.

Discuss about the values, importance and rules of reading the Noble Quran.

Argument - reason all competences obtained through respective arguments.

Teach the others with the same competence following completion of all its semesters.

Methodology of teaching:

Teaching shall be carried out in form of lecture classes and exercises where students will be encouraged to make questions and analysis within the held lecture. Equipment for presentation such as projector for presenting knowledge in form of slides with power point program will be used. Seminars will also be held, which will be presented individually but also in group, and also self-assessment tests will be conducted. All these will be complemented with their implementation in practice by reading-reciting by the students before the professor. Students will have opportunity that during the preparation of subject to contact the professor and take instructions intending to reach the aimed quality and outcomes in learning process.

Content of the subject:

First week: Elongations and their types, general acquaintance with the nature and sources of these elongations in Arabic language. Natural source elongations, cases of its formation, level of elongation and its norm. Elongation of changing, cases of formation and level of elongation. Elongation of replacement and its norm.
