### Education and scientific activity

## **Education**

1. I have completed primary school in my country.
2. high school Medrese “Alauddin” in Pristina, I graduated in 1984/1985.
3. Faculty of Arabic Language and Literature, in the Islamic University of Medina - Saudi Arabia.

### **Activities during the lessons at the Faculty**

During my stay in Medina for 15 years, I tried during my stay in the medina to spend learning more of curriculum and in the meantime I also learned from the great Imams in the Mosque of the Prophet in Medina. I have followed many lectures in fiqh and hadith from Shaykh Atiyyah, then the tafsir of Shaykh Abu Bakr Xhezairij, then the head of the muamelatve “transactions” Fiqh from Elhidaje book Mergimanit by an Indian scholar, and other lectures

- Then I participated in (course) intensive program dedicated the Islamic Dawe organized by “Dawe Center” near the University.
- After my graduating in 1992 I started the Master and I chose the topic on the Hanafi Fikh , tahkik mahtut, as I mentioned above the title of the topic and I ended up successfully in 1996.
- In the same year I started my doctorate and I have recorded a topic in the Hanafi fiqh. I worked for the topic: Transmissions or subjects of Ebu Hanifa from one of his students named Elhasen Bin Zijad Elulij. Knowing the large number of topics or transmissions I have studied for ibadet, from the beginning of the chapter on cleanliness until the end of the chapter on Hajj. I have added the thoughts of the other madhhabs bringing for each thoughts, arguments and finally the favored opinion. Thanking Allah I ended up in record time and I got the highest exemplary success.

**Work at the Faculty of Islamic Studies in Prishtina:** When I graduated, and when I finished my doctorate I returned to Kosovo to contribute, and in the same year I was employed as a teacher at the Faculty of Islamic Studies in Prishtina, I taught in the first and the second year, while for the fourth year I taught sulu fikh. The subject of sulu fikh I have been teaching for only two years, while five years I have been teaching fiqh until 2006.

Then I paused until 2012 and again I am active as a regular professor of fikh subject and I continue to be and nowadays.

**Work in the Mosque:** At the end of 2002 I started to work as an imam in the Great Mosque in Pristina in which I work to this days. In the mosque

I have lectured various topics except hutba on the day of jumma naturally. Among the lectures I think is worth mentioning It is the interpretation of the Quran which I started since the spring of 2003 and I have never stopped so far, I have come to verse 27 of Surah Nur. I have tried to prepare these lectures in the best way using different tefsires from the earliest until nowadays tefsires. Knowing that besides the fact that I have been teaching, i always tried to write also those lectures, that after a while I publish a full tefsir. Up to now thousands of pages have been written but of course I have not finished yet. knowing that I have not published them yet, but they remain in manuscript.

These lectures are recorded and they have been shared in Europe, everywhere where Albanians live.

- After the morning salah I explained the book 'Akide Tahaviu' and we've finished it all. I have published this book in two volumes. I explained many topics for hadith, then sire, ahlak etc.

#### **Other activities**

- From the beginning I am engaged in various Islamic activities. I have attended various seminars, in Pristina and abroad, where in various organizations I have lectured my own topics. Almost in every city I have organized more than one tribune, then in Macedonia, Presevo, Bujanovac, Ulcinj, as well as organizing many tribunes in many different European countries, starting from Italy up to Scandinavia.
- Since 2005 we started with live shows at Radio Kosova e Lirë, once a week for two hours. We divided them per week: one week Akide, one week Fikh, one week Ahlak and the History of the Prophets and Sahabs stories. Also in the show with questions and answers . This show has had a lot of influence both in the country and outside it, and is followed by audiences in Europe as well. While every day on the same radio we transmit lectures previously recorded, from 6 o'clock to 7 o'clock in morning. I have been invited many times on several different radio stations in Pristina and abroad. From 2009 every Thursday I teach at TV Vali and TV Gjilan directly. This program is followed by a large audience

within the country and abroad, and now finally on tv Mitrovic and tv Prizeren. All these shows are live, and the audience can contact with me.

- Since 2009 for every Friday I have written various topics in the daily newspaper "Epoka e Re", and I continued until the end of 2011
- For many years I've been writing different topics in the magazine "Argumenti" with events about the miracles of the Qur'an and the Sunnah.

### **Teaching engagements**

- Teacher of Fikh subject, in the first and second year of the university, for five years For two years I have been teaching suli fikut for the students in the fourth year who are studying at university.

### **Scientific activity**

- So far we have written over 30 books, among them:
